Career Objective:

As a junior **MERN** developer, I am constantly pushing boundaries, embracing challenges, and growing with every line of code. Driven by a passion for learning, I am committed to solving problems and creating innovative web solutions. My goal is to evolve into a Full Stack Developer, Blockchain Developer, Machine Learning, with a focus on building secure, decentralized applications.

Skill Summary:

Frontend: HTML, CSS, Tailwind, JavaScript (Functions, Arrays, Objects, Classes, ES6+ Features), React.js (UI Development)

Backend: Node.js (Server-side), Express.js (RESTful API Development)

Database: MongoDB (NoSQL Database Management)

Data Structure: Linked List, Array, Stack, Queue, Tree, Graph

Algorithm: Sorting, Searching BFS, DFS, LIS, LCS, Dijkstra's, Bellman-Ford, Knapsack, Prim's, Kruskal's, Floyd-Warshall

Problem-Solving Skills:

[Leetcode](#): Solved 314+ LeetCode problems, improving problem-solving, analytical thinking, and expertise in data structures and algorithms.

[Code Force](#): I have solved approximately **213** problems on CodeForces and actively participate in various contests on the platform. My highest contest rating is 994, and my current rank is "**Newbie**"

[Code Chef](#): I have solved approximately **93** problems on CodeChef and actively participate in various contests on the platform. My highest contest rating is 1519, and my current rank is 2*

[Outsbook](#): I've solved 292 problems on Outsbook and currently holds a rank of 26.

Recent Projects:

1. Sakib BloodBridge

[Live Link](#) | [Client](#) | [Server](#)

A blood donation platform where users can request blood, find donors, and contribute to funding.

Key Features:

- **Role Management:** Admins manage users, volunteers create requests, donors respond.
- **Secure Dashboard:** Email login, profile management, and personalized dashboard.
- **Donation Requests & Search:** Users request blood and filter donors by blood group, district, and upazila.

2. Sakib Welfare Champine

[Live Link](#) | [Client](#) | [Server](#)

A web platform for managing donations and creating community support campaigns.

Key Features:

- **Make Donations:** Users contribute to various campaigns.
- **Create Campaigns:** Easily start and manage fundraising initiatives.
- **Sort & Manage Campaigns:** Filter and track active campaigns in real-time.

3. Sakib Swift Launch

[Live Link](#) | [Client](#) | [Server](#)

A web platform for managing lost and found items, allowing users to create posts, browse listings, and recover belongings.

Key Features:

- **Lost & Found Posts:** Users report lost or found items with images and descriptions.
- **Search & Filter:** Sort posts by date, category, or location for better accessibility.
- **Secure Authentication:** Email/password login with JWT-protected private routes.

Academic Qualification:

Dhaka International University

Bachelors of Science in Computer Science and Engineering

2023-Running

Language

Bengali (Native): Fluent in speaking, reading, and writing.

English (Intermediate): Strong reading, moderate speaking, basic writing.
